

MYOB GST New Features Training

Course description

This course is ideal for existing users of MYOB Accounting Software. It is designed to provide participants with an understanding of GST concepts and how to account for GST in the business.

Course duration : **9.30 am to 5.00 pm**, including hands-on-training using latest version of MYOB software

Learning Outcome

Participants will be introduced to Customs Recommended Tax Codes and how to apply those tax codes when recording transactions in MYOB Accounting software. Participants will also learn how to generate the GST 03 forms for submission purposes. Lastly, participants will learn how to generate the GAF files for audit purposes.
